Special Introductory CACI Synergy Offer Inside.

Now Available in Canada, Exclusively Through:

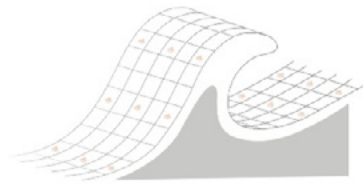

# Avyonce

# Experience Unmatched Innovation

At the core of the CACI Synergy System lies unique Microcurrent technology, setting us apart. We use ultra-low frequencies with skin resistance tech and a patented digital waveform to optimize comfort and outcomes. This gradually intensifies, overcoming skin resistance, delivering full Microcurrent power deep into muscle - ensuring superior and longer-lasting results.

But there's more; we've elevated Microcurrent tech with the Synergy system. Our S.P.E.D.<sup>®</sup> Dual Action Technology is a game-changer, enabling simultaneous LED light stimulation with Microcurrent. Clinically proven, it delivers faster, more effective, and longer-lasting results than standard Microcurrent alone.

## Skin Hydration

Hydratone  
Rollers with  
S.P.E.D.®  
Technology

Hydratone S.P.E.D.® Dual Action Technology Rollers are used to gently massage the face over the electrically conductive CACI Hydro Mask. The microcurrent's rejuvenating energy transmitted through the rollers provides immediate and intensive skin hydration and helps to restore muscle tone and firmness. Red light is generally used for anti-ageing as it stimulates the production of collagen and rejuvenates the skin. Blue light has a calming action on inflamed or irritated skin.

## Hydratone Treatment

This treatment is designed to deeply nourish, hydrate and firm the skin. Facial rollers emitting simultaneous microcurrent impulses and LED light therapy are gently massaged over a hydrating gel facial mask. The rejuvenating energy transmitted through the rollers provides immediate and intensive hydration and helps to restore skin firmness, soften fine lines and rejuvenate the skin. Ideal for the treatment of dehydrated or sun damaged skin.

Treatment length: 15 minutes

Intensive skin hydration for  
dry, dull & dehydrated skin.

## Microcurrent Probes with S.P.E.D.<sup>®</sup> Technology

The dual-tipped Microcurrent Probes utilise CACI's pioneering S.P.E.D.<sup>®</sup> Dual Action Technology, allowing skincare specialists to harness the power of LED light therapy at the same time as using microcurrent. The dual action of simultaneous LED and microcurrent energy stimulates tissue regeneration, helps in the production of collagen, tightens sagging muscles whilst smoothing the appearance of fine lines and wrinkles. The unique combination of these technologies provides more visible and longer lasting results.

Lift and tone your facial muscles while reducing fine lines and wrinkles.

### T-BAR

The T-Bar works in conjunction with the Microcurrent Probes to grip a larger muscle surface area, to provide dramatic forming and lifting results on the face.

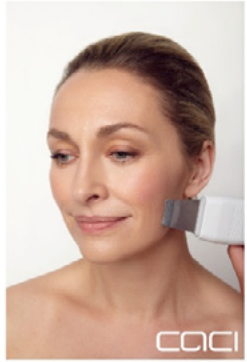

## Signature Facial Toning

This non-invasive facial features S.P.E.D® Dual Action Technology that provides simultaneous skin rejuvenation and facial toning. This treatment uses microcurrent impulses, to lift and tone and LED light therapy to improve skin elasticity and reduce the appearance of fine lines and wrinkles. Firms your face and gives your skin a more youthful, fresh appearance and glow.

Treatment length: 60 minutes

# Ultrasonic Rejuvenation

## Ultrasonic Actuator

Piezoelectric dermal vibrations combined with simultaneous ultrasound technology.

The Ultrasonic Actuator handpiece contains ceramic/quartz transducers that when excited by an electrical current emit rapid vibrations, 27,000 per second. The vibrations propel impurities to the skin surface and cause dead skin cells to become dislodged. The handpiece is then used to deeply cleanse and gently exfoliate the epidermis. The Ultrasonic Actuator provides a far gentler and less aggressive method of skin exfoliation than traditional microdermabrasion.

The Ultrasonic Actuator is used in the following treatments:

- Synergy Purifying
- Skin Confidence
- Wrinkle Revolution
- Gentleman's Facial
- Synergy Advanced Facial Toning

# Skin Resurfacing

A massage tip can also be inserted onto the handpiece to provide a lymphatic drainage treatment.

## Orbital Abrader with LED Light Therapy

This advanced exfoliation technology employs a rotating handpiece with an abrasive tip, operating on an elliptical axis for precise and tailored skin renewal. Disposable silicon carbide-coated tips deliver either superficial or deep epidermal exfoliation, enhancing complexion clarity and youthfulness. You can tailor treatments precisely. This method surpasses issues with crystal-based systems, like blockage and maintenance.

The Orbital Abrader is used in the following treatments:

- Synergy Purifying
- Skin Confidence
- Wrinkle Revolution
- Gentleman's Facial
- Synergy Advanced Facial Toning

# Synergy Purifying Treatment

This treatment tackles problematic skin and leaves the complexion looking smooth and radiantly healthy. A combination of red and blue LED light therapy, deep cleansing and skin exfoliation techniques are used to effectively brighten and even the skin tone.

Treatment length: 45 minutes

## Wrinkle Reduction

### Wrinkle Comb with LED Light Therapy

The Wrinkle Comb effectively and painlessly softens deep lines and wrinkles, offering a needle-free alternative to dermal fillers. Its unique handset simultaneously transmits high-frequency electrical stimulation and LED light to boost elastin and collagen production. Red LED light rejuvenates the skin and aids in tissue healing, while Blue LED Light soothes and reduces inflammation in irritated skin. An alternating pulsed LED mode is highly effective for acne-prone or problematic skin.

The Wrinkle Comb is used in the following treatments:

- Wrinkle Revolution
- Lip Booster
- Skin Calm
- Synergy Purifying
- Skin Confidence
- Synergy Advanced Facial Toning

# Wrinkle Revolution

Targets deep lines and wrinkles, such as crow's feet and laughter lines. This treatment is a non-invasive, needle free alternative to collagen injections and dermal fillers that will instantly plump fine lines and wrinkles from the very first treatment.

Treatment length: 30 minutes

Reduce the appearance  
of fine lines and wrinkles.
